**07RFP54123YA-DR Contract Compliance Management Software
Addendum No. 5
Page Two**

This Addendum forms a part of the contract documents and **modifies** the original RFP documents as noted below:

Question #1 - In section 1.1 on page 1-2 it says that the "The software system must provide the following key functions; certification; vendor/contractor management to include self-registration and maintenance; certified payroll; invoice and payment tracking; subcontractor utilization; outreach tools and comprehensive reporting." **Please elaborate on the payroll requirement. Is this an interface with the AMS system or is it a separate function?**

Response: The certified payroll function is not that important, but it should provide enough text function for them to scan them in on a monthly basis.

Question #2 - In section 2.5 on page 1-6 says, "The system shall be fully operational ninety (90) days after execution of contract." **Does this mean the engagement will be complete or that the system functionality has to be in place?**

Response: The system's functionality must be in place. We realize that training must take place before the system becomes completely operational.
